This announcement has been authorised by the Chairman of Antilles Gold Limited.

*Antilles Gold is participating in the development of gold and copper mines, and the exploration of porphyry copper deposits in mineral rich Cuba, through a 50:50 joint venture with the Government's mining company, GeoMinera.*

The joint venture company has assembled an impressive portfolio of development, and exploration properties

### Mining Concessions

- 752ha concession in central Cuba hosting the El Pilar porphyry copper deposit, and the outcropping Nueva Sabana gold-copper oxide deposit where the joint venture plans to develop a mine in 2024-25
- 900ha concession on the Isle of Youth off the south west coast hosting the La Demajagua gold-silver-antimony deposit which the joint venture plans to develop as a first stage open pit mine in 2025-27

### Exploration Concessions

- 17,000 ha concession in central Cuba with two porphyry copper deposits identified, San Nicholas and San Nicholas South
- 42,000 ha contiguous concessions, La Cristina and Vega Grande, within the Sierra Maestra copper belt in SE Cuba with evident copper-gold-molybdenum mineralisation at surface and in old workings
